

Laura Wright

I have been a parent governor since March 2022 and is a mum of two children, one of which is currently in year 1 (Owls) at Hingham Primary School.

I work at the Norfolk and Norwich University Hospital as a Chief Biomedical Scientist and my key role is being the Quality and Training Manager for Cellular Pathology. I have been in this role since May 2022 but have worked for the trust as a Biomedical Scientist for the last 10 years within Histopathology.

I have a keen interest in science as a core subject and have a core belief in helping children to achieve and obtain a high standard and quality of education. Our children are the future, so instilling core values and giving them the skills to go through life will allow them to flourish and grow.
